Maui's Hideaway Debuts New Look

AVENUE INTERIOR DESIGN LED INTERIOR DESIGN

APRIL 02, 2019 | Boutique Design

Avenue Interior Design has completed the design for the Hideaway at the Montage Kapalua Bay in Maui, Hawaii. The restaurant was rebranded with a focus on creating an inviting, island-centric interior that maximized on the coastal views of the property.

Designers paid homage to the surrounding natural area in its FF&E. Barstools and dining chairs made of natural rope, while a bespoke live-edge wood communal table and ceramic stools are seen throughout the space. The restaurant's façade is comprised of fully operable, wood shutters allowing the outdoor space to flow into the interior dining space.
