9 Impeccably Designed Boutique Hotels in Palm Springs for the Perfect Midcentury Retreat

La Serena Villas

Courtesy La Serena Villas

Built in 1933, the historic [La Serena Villas](#) hotel is located in the center of all the action in Palm Springs. In 2016, the space was redeveloped by award winning architect May Sung, along with the help of the interior design group Avenue Interior Design. Together, the hotel says, the team hand-picked every interior detail to maximize the beauty inside and out. The 18 guest rooms are all outfitted with crisp white and blue hues, which open up to private patios and vast views of the San Jacinto Mountains that surround.
