# BRINGING THE HOTEL HOME

July 12, 2021

For the last 10 years, **Avenue Interior Design** has specialized in the hospitality industry, designing and creating original identities for some of the biggest hotel chains in the world—such as MGM Resorts and sbe, and one-of-a-kind properties like the cool La Serena Villas in Palms Springs and The Ramble Hotel in Denver, to name a few.

Their ability to create layered interiors that exude character made them the perfect go-to to walk us through recreating that hotel room life right in your own bedroom—from the perfect sheets to curating your art wall and designating “intentional” spaces.

## DESIGNATE INTENTIONAL SPACES
