#### GREEN VALLEY RANCH RESORT & SPA

At Green Valley Ranch Resort & Spa, a \$200 million transformation reaches a key milestone with the debut of its fully reimagined West Tower suites, encompassing 71 luxury accommodations and 422 redesigned guest rooms. Crafted in collaboration with Avenue Interior Design, the new collection introduces a more residential aesthetic, balancing polished Vegas glamour with a refined, contemporary sensibility. The phase builds on recent updates, with renovations to meetings and convention spaces, the East Tower and South Lobby set to roll out through 2026. Just minutes from the Strip, the property continues to distinguish itself with a more private, design-driven take on Las Vegas luxury. [greenvalleyranch.com](https://www.greenvalleyranch.com)
