SLS Beverly Hills unveils new look

The SLS Hotel, a Luxury Collection Hotel in Beverly Hills, has announced the completion of a comprehensive redesign of the rooms and guest experience ahead of its decade milestone in November 2018.

The newly reimagined look, which includes all 234 guestrooms and 63 suites, continues to embrace the property's original identity of elegance and whimsy, now dawning a lighter palette and character that speaks to the brighter and more refined disposition of the destination, alongside the latest in technology and modern comforts.

Locally inspired guest programming, revamped Garden Terrace events space, and innovated culinary and cocktail experiences round out SLS Beverly Hills' ten-year evolution.

"With a fresh energy, vibrant culture and glamorous social scene, Los Angeles is a key destination for Global Explorers and SLS Beverly Hills is in the center of one its most iconic neighborhoods," comments Anthony Ingham, Global Brand Leader, The Luxury Collection. "We are thrilled to debut the modern redesign of **SLS Beverly Hills** as we continue to create authentic experiences for our discerning travelers in this buzzing city."
